PROFESSIONAL SUMMARY

Business Analyst with 4+ years driving operational rigor, KPI-driven reporting, and cross-functional process audits across Fortune 100 clients (Merck, Cigna, Estée Lauder) and a high-growth startup. Builds executive-ready dashboards and financial/operational models that give leadership real-time visibility into performance and risk, and has led process-standardization work that improved audit accuracy and cut reporting timelines by **25%**. Brings a systems-thinking, detail-oriented approach to complex, multi-stakeholder environments - partnering across Finance, IT, and executive leadership to turn ambiguous operational challenges into structured, actionable processes.

CORE COMPETENCIES

KPI Dashboards & Executive Reporting

Financial & Operational Modeling

Cross-Functional Process Audits

Advanced Excel, Tableau & Power BI

AI-Driven Workflow Automation

Stakeholder Management (Finance, IT, Leadership)

Process Standardization & SOP Development

Data-Driven Decision Support

WORK EXPERIENCE

Reku

October 2025 - Present

Senior Analyst, Strategy & Business Operations

Remote (Contract)

- Built KPI frameworks and performance dashboards to track adoption, identify trends, and support data-driven decision-making
- Developed financial and operational models to evaluate new initiatives and forecast growth scenarios
- Designed AI-powered workflows and agents to automate data aggregation, pipeline tracking, and reporting - identifying efficiency opportunities, scoping solutions, and enabling team adoption through documentation and guidance
- Identified process inefficiencies across operational workflows and implemented improvements - reducing manual effort, improving data accuracy, and increasing cross-functional adoption of standardized processes
- Partnered directly with founders to analyze user behavior, engagement trends, and pipeline performance, informing growth strategy and prioritization
- Led end-to-end development of an investor-ready business case for Reku Ventures (venture capital expansion), including market sizing, competitive analysis, revenue modeling, and strategic rationale - directly supporting leadership discussions with external investors
- Translated business challenges into structured solution frameworks, bridging founder-level strategic needs with technical implementation across both technical and non-technical audiences

EPAM Systems

August 2022 - August 2025

Business Analyst, Transformation / Consulting Analyst

Remote (IT Services & Consulting)

- Merck - Global Trade Compliance (ServiceNow IRM):** Led requirements workshops across technical and business stakeholders for a multi-phase transformation; documented workflows, supported UAT, and enabled rollout of automated compliance processes - improving audit accuracy and reducing reporting timelines by **25%**
- Cigna - Claims System Migration:** Supported end-to-end migration of legacy claims platforms to modern systems serving **20M+ users**; built KPI scorecards and executive dashboards with senior stakeholders to track performance, risks, and delivery outcomes for a large-scale enterprise migration
- EPAM CEO Office - Strategy & Operations:** Partnered with executive leadership to shape 2024 strategic outlook across financial services, government tech, and energy; conducted market and competitive analysis, market sizing, and financial modeling to evaluate multi-million-dollar growth initiatives - informing executive investment prioritization; presented findings to C-level stakeholders

- **EPAM Transformation Business Unit:** Supported AI-enabled digital transformation programs; assessed enterprise operations and performance data to identify and prioritize AI-driven automation initiatives; partnered with technical teams to explore feasibility of AI-enabled solutions, contributing to rapid prototyping and proof-of-concept development
- **Estée Lauder Companies - Learning Platform Design:** Gathered business and user requirements; supported UX design through Figma mockups; incorporated user feedback and adoption considerations to inform platform design, engagement strategy, and rollout planning
